Brad,

It is with great pleasure that Elaine and I write this letter of recommendation for any future customers that might be looking for remodeling services.

From the day of our initial contact, to the day of the project completion your professionalism and the professionalism of all your subcontracts was of the highest levels that I have seen in my 20+ years of working civilian and military contracts.

Since we were thinking about adding a new room to the house, remodeling the entire master bathroom and a second bathroom, we were initially hesitant to even think about doing any remodeling work because of all the horror stories.

Once the contract was signed, to the day it was finish, your team had the "can do" attitude and made every step of the project go smoothly. The work was either ahead of schedule or right on schedule. The entire project was completed in less than 60 days. By the way, the work was amazing.

Elaine and I will be enjoying the new room and the remodeled bathrooms for years. Thanks so much for the great work!

Thanks Brad
